- *Travel expenses* **cost price**
- *Accommodation* **cost price**

7. Interim checks and exchange of objects

In the case of long-term loans, objects that are sensitive to the effect of light and climate must sometimes be exchanged after a certain period of time. If necessary this shall be agreed in advance with the Borrower and the costs charged to the Borrower on the basis of this price list, including costs for couriers and any necessary materials (mounts, supports, packaging etc.). The WMR reserves the right to check the conditions of the loan or the loaned objects at any time during the loan period, in so far that this might be considered reasonable and in agreement with the Borrower.

8. Insurance

For all borrowers outside the Netherlands the WMR will, in principle, insure the Loan on a 'nail to nail' basis during transportation and throughout the entire period of exhibition. In case of very high insurance values premium costs might be charged. Objects not belonging to the collection of the WMR will be insured according to the loan conditions of the owner.
